

1. Shape Hunt around the house.

- What shapes can you find?
- Keep a tally - which shape did you find the most of?  
Which shape did you find the least of? Use the words - few, most, least.
- Is it smooth or does it have edges?
- How many edges does it have?
- Think about 2D and 3D shapes
- Label each shape as you find them.
- Draw each shape.

2. Counting objects to 10. Recognising numerals to 10.

- Count the chicks on each card.
- How many are there altogether?
- Can you recognise the numerals?
- Can you select the correct numeral to represent the number of chicks on each card?
- Can you represent each numeral using your fingers?
- Can you represent each numeral on paper?

**Please see maths resource file for number and chick cards.**
