

Nursery

Week 11 Understanding the World.

Activity 1

Can you make vegetable soup, a fruit salad or a milkshake just like Oliver?

What ingredients are you going to need?

Can you make a list?

Try the ingredients before you cook with them.

How do we use knives safely?

Can you chop the ingredients?

Can you describe how the ingredients feel and smell?

How do they feel when you chop them?

Are all the ingredients the same?

Can you sort the ingredients into soft and hard?

Can you describe how the vegetables change when you cook them?

How do the ingredients change when you blend them?

How do you stay safe when you use the cooker? What must you not do?

Is milk a liquid or a solid? How do you know this?

What can you do with a liquid that you can't with a solid?

Do all the ingredients change into liquids?

Do the ingredients taste the same after they have been cooked and blended?

Can you describe how the ingredients taste?

Do they all taste the same? How are they different?

Are any of the ingredients similar?

Activity 2

How do fruit and vegetables grow?

Use the activity 2 resource (a PowerPoint) to see how fruit and vegetables are grown.

Do you grow any fruit or vegetables at your house?

Can you think of any fruit or vegetables that might not grow in this country?

Why might that be?

If you can, go to a farm and pick your own fruit!
