

# Five Fun Activities

WB: 29<sup>th</sup> June 2020

## 1. Make a water sprinkler

Now we are in summer the weather is going to be getting warmer. It's the perfect time to play in the garden with water!

All you need is a large bottle, some strong tape and a hose pipe to create this! You could put it on the ground or hang it if you have somewhere to hang it from.

## 2. Make Pink Melon Lollies

PREP: 15 MINS

plus overnight freezing no cook

EASY

MAKES 8 SMALL LOLLIES

### Ingredients

- 900g diced, skinned and deseeded watermelon - fiddly but worth it
- 2 tbsp granulated sugar
- 5 tbsp lime juice (you'll need about 3 limes)
- 2 tbsp grated ginger

### Method

1. Put the melon, sugar, lime juice and ginger in a blender (or use a stick blender) and whizz until smooth. Skim off any fluffy stuff, then divide between ice lolly moulds and freeze overnight.
2. When you're ready to serve, remove the lollies from their moulds before tucking in.

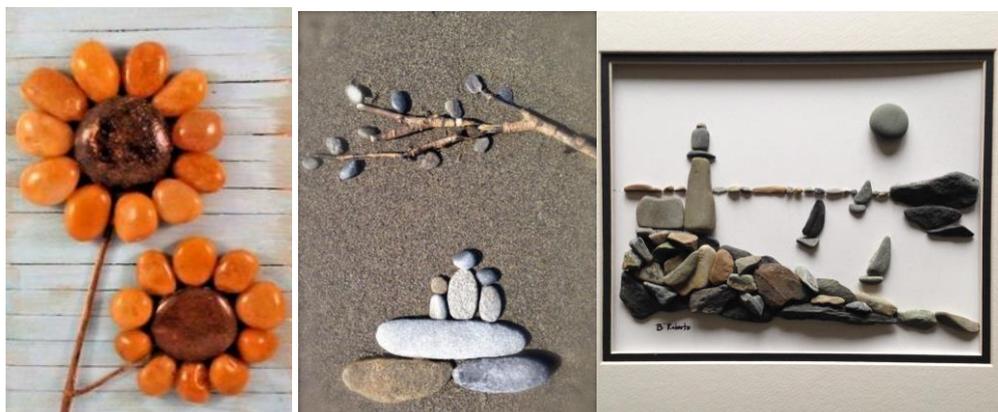

### Jobs for your child

1. Put the watermelon into a big bowl, then pick the little brown seeds out of the fruit. Put the seeds in another bowl.
2. Measure the sugar and add to the watermelon. Measure the lime juice and add to the watermelon – you will need to squeeze the lime halves really hard to squeeze out the juice.
3. Using the smallest teeth on the grater, grate the ginger. Then add the grated ginger to the watermelon.
4. Using a potato masher, mash the watermelon until it's really mashed up, almost like a juice.
5. Spoon the lolly mixture into lolly moulds, add lolly sticks and freeze.

## 3. Make a pebble or stone picture

Collect pebbles either from your garden or from somewhere you have been out walking to. Once you have enough pebbles use them to create a piece of art linked to summer. You may want to paint your pebbles but you do not have to.

Here are some ideas below.

## 4. Challenge yourself on a walk

The weather is getting better again! Why don't you go for a walk around Newbold Quarry?

If you want a challenge you could;

- Time yourself to see how long it takes you to do one lap.
- See how many laps you can do in a certain amount of time.

Remember to take a bottle of water and a snack with you!

## 5. Learn about London Climate Action Week

### Why is it London Climate Action Week important?

Sadiq Khan, the Mayor of London, declared a climate emergency in 2018, and has committed to make London a zero-carbon city.

Carbon emissions and air pollution are key contributors to climate change - one of the greatest existential issues we're facing.

London Climate Action Week is important because it educates people on the topic and provides a forum for people to work collaboratively to find solutions.

We're already seeing the impacts of climate change, so events like London Climate Action Week aim to come up with sustainable plans for the future.

The digital event is taking place from 1-3<sup>rd</sup> July this year.

Follow the link for more information: <https://www.londonclimateactionweek.org/>

### Ways you can take part in London Climate Action Week:

1. Watch one of the digital events
2. Learn about climate change by researching on the internet
3. Think of ways we can limit carbon emissions in our daily lives and write a guide or manual to share with family
