

IAL: to recognise and know the different denominations of coins and notes.

Cut out the coins and notes below and stick them above the correct value.

			
10p	50p	£2	2p
			
£1	20p	5p	1p
			
£5	£20	£10	

IAL: to recognise and know the different denominations of coins and notes.

Choose A, B or C and complete the activity. If you would like to complete more than one activity, you can.

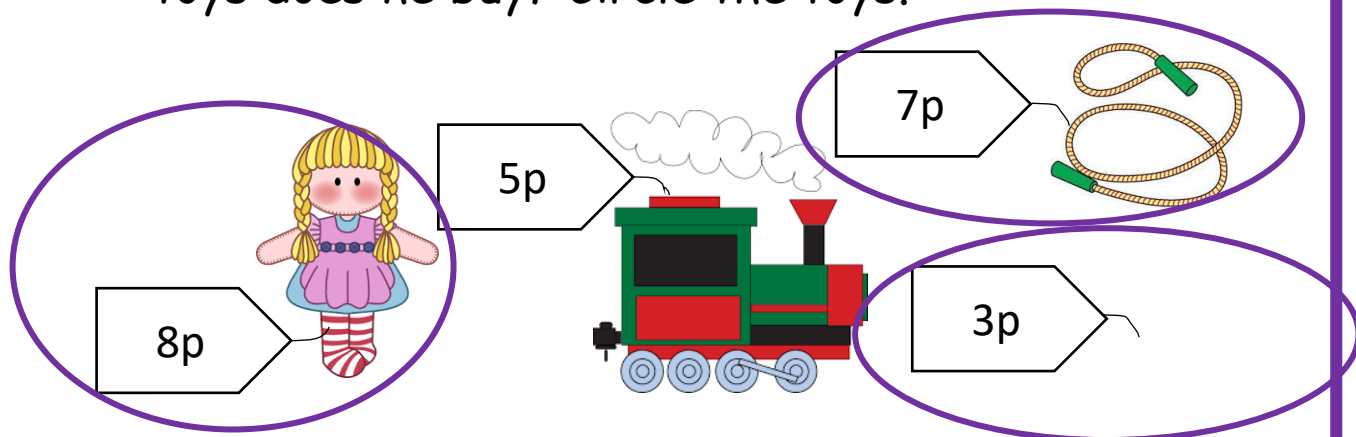

A

Which coins are being described?

1. I am **copper** and I am the biggest copper coin. 2p
2. I am the smallest **silver** coin and I am round. 5p
3. I am **silver** and **gold** and have edges. £1.00

B

1. Dan buys three toys. He spends 18p. Which three toys does he buy? Circle the toys.

2. Dan pays for his toys with a 20p coin. How much change does he get? 2p

C

Answer the questions below using number sentences.

1. Bill bought some apples for 13p. Which coins did he use? $10p + 2p + 1p = 13p$
2. David bought some pencils for 16p. Which coins did he use? $10p + 5p + 1p = 16p$
3. Ben paid for his sweets with two 5p's, three 2p's and two 1p's. How much did he spend altogether?
 $5p + 5p + 2p + 2p + 2p + 1p + 1p = 18p$

IAL: to recognise and know the different denominations of coins and notes.

Choose A, B or C and complete the activity. If you would like to complete more than one activity, you can.

A

Make 20p using the coins below. Start with using 2 coins, then 3 then 4. You can use each coin more than once.

2 coins

3 coins

4 coins

B

Complete the table below.

	price	pay with...	change
	35p	  	5p

	price	pay with...	change
	38p	50p	 

	price	pay with...	change
	30p		

C

Explain the mistakes in the table below.

	price	pay with...	change
	16p		

There is no 4p coin. The change would be two 2p coins.

	price	pay with...	change
	28p		

They have only paid with 25p. To make it 28p, the 2p and 1p coins should be in the "pay with" meaning there is no change to be given.
