## Times Tables Snakes and Ladders

**You need:** a dice and a counter per player

**How to play:**

- 1) Players take it in turns to roll the dice. Whoever rolls the highest number goes first.
- 2) When it is your turn, roll the dice and move that number of squares. You need to answer the calculation that you land on.
- 3) If you answer correctly, then the next player continues with their go. If you answer incorrectly, then you miss a go on your next turn.
- 4) If you land on a ladder, you climb up it. If you land on a snake, you slide down it.
- 5) The first player to reach the finish is the winner!
